

2015 Lecture Series

Celebrating 10 Years

# Rewilding the Arctic

January 9<sup>th</sup> 7-8:30 pm

Northwest Educational Service District Building  
1601 R Ave, Anacortes

Andy Bunn, Ph. D  
Dept. of Environmental Science  
Western Washington University

Twenty thousand years ago mammoths roamed a tundra ecosystem that stretched from France to China. Could that ecosystem be restored? Could it help us fight climate change? Dr. Andy Bunn has spent more than a decade researching the rapid changes in the Arctic and the complex relationship between climate and vegetation. Come and learn more about his findings.

Lectures are free and open to the public.
